This workshop is for leaders, those who aspire to be leaders, and all employees who desire to take their performance to a higher level.

This workshop identifies the most important Power Skills to master on projects and in the workplace. Some Power Skills may initially cause your hands to sweat and your heart to race.

You are fully accountable for your ultimate success and this workshop promotes accountability and demonstrates how to think and act to achieve the success you most desire.

But this workshop does far more. It describes Power Skills that, if taught and nurtured to *all* employees of an organization or company, can result in the organization continuously, holistically, and positively evolving. Adopting these Power Skills can lead to *exceptional performance* both for individuals and for their organizations.

The Power Skills discussed include *manage daily to your top three priorities, break the rules occasionally, never avoid necessary confrontation, think for yourself, routinely practice boldness and courage, make decisions as if you own the business, decide who you chose to be, be a good actor*, and so much more.

Neal welcomes you to come along for a potentially transformative and game-changing ride in your personal pursuit of the adventure called life. Don't be surprised if the workshop has the effect of changing your life trajectory. Dare to become the person you most imagine.
